The Little Orchestra, directed by

Carol Pharo is a unique opportunity for developing ensemble skills in elementary-aged string players. With the aid of multiple instructors, students will be matched with others of similar level and encouraged to perform as soloists, in small groups (duo, trio, quartet, etc.),

and in a comprehensive string orchestra setting. Repertoire includes works from the Renaissance to the present. A professional pianist provides support at every session, and supplementary drama activities guarantee a fun time for all!

Students from the public schools and private teachers, in State College and beyond, are welcome to become part of this exciting new ensemble. *Tuition fees have been waived (except for a \$25 registration fee) thanks to a generous grant from the Centre County Community Foundation.*
